Heavy Equipment Rental with Operator.
See "Full Contract" for all sections.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 3.2. **Fuel.** Equipment is to be delivered with a full tank of fuel and returned with a full tank of fuel.
- 3.3. **Fuel Charge/Credit.** When the price of on-highway diesel fuel exceeds \$2.55 per gallon, contractor may charge for the difference in price multiplied by the AGL (average gallons per hour) multiplied by the hours of actual use. Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel charge}$).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.
- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.
- 3.7. **Insurance.** The contractor must provide evidence of insurance as required by the user before the equipment may be operated. The user shall not be liable for accidents caused by the operator.
- 3.8. **Response.** Equipment should be supplied within a forty-eight (48) hours' notice whenever possible. 48hrs notice is sufficient on a normal basis.

3.9. Definitions.

If the supplier lists a trade name and/or catalog number in the bid, the DIVISION will assume the item meets the specifications unless the bid clearly states it is an alternate, and describes specifically how it differs from the item specified. All bids must include complete manufacturer's descriptive literature if quoting an equivalent product. All products are to be of new, unused condition, unless otherwise requested in this solicitation. (c) By submitting the bid the supplier certifies that all of the information provided is accurate, that they are willing and able to furnish the item(s) specified, and that prices quoted are correct. Unless otherwise indicated on the contract/purchase order, shipping terms will be FOB Destination Freight Prepaid.

The second part is an Excel file. This should be downloaded from RFP Depot, filled in, and uploaded to RFP Depot. Brand names and model numbers shall be changed to reflect the exact brand and model you are offering. Minor changes to descriptions may also be changed to reflect your equipment. Descriptions provided shall clarify information, not hide information. You may insert rows as needed in the Excel file to provide other options. When not bidding an item leave it blank but do not delete the row. You must highlight all changes.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.

<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel}$)

charge).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.

- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.

2. BID PREPARATION: (a) Delivery time is critical and must be adhered to as specified. "Or equivalent" means any other brand that is equal in use, quality, economy and performance to the brand listed as determined by the DIVISION. If the supplier lists a trade name and/or catalog number in the bid, the DIVISION will assume the item meets the specifications unless the bid clearly states it is an alternate, and describes specifically how it differs from the item specified. All bids must include complete manufacturer's descriptive literature if quoting an equivalent product. All products are to be of new, unused condition, unless otherwise requested in this solicitation. (c) By submitting the bid the supplier certifies that all of the information provided is accurate, that they are willing and able to furnish the item(s) specified, and that prices quoted are correct. Unless otherwise indicated on the contract/purchase order, shipping terms will be FOB Destination Freight Prepaid.

State Cooperative Contract Heavy Equipment Rental With Operator

1. Introduction

- 1.1. Multiple state cooperative contracts are contemplated to facilitate the rental of heavy equipment with operator for users such as state agencies, cities, counties, towns, and school districts. Contracts will be two (2) years with three (3) one-year renewal options.

2. Bid Requirements

- 2.1. The bid is divided into two parts. The first part is the dialog boxes provided in sections 3.8 through 3.14 at the end of this document.

The second part is an Excel file. This should be downloaded from RFP Depot, filled in, and uploaded to RFP Depot. Brand names and model numbers shall be changed to reflect the exact brand and model you are offering. Minor changes to descriptions may also be changed to reflect your equipment. Descriptions provided shall clarify information, not hide information. You may insert rows as needed in the Excel file to provide other options. When not bidding an item leave it blank but do not delete the row. You must highlight all changes.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 2.3. The transportation costs shall be bid in dollars-per-hour or dollars- per-mile. If bidding in dollars-per-mile, you must change the column heading to \$/mi.

3. Rental Equipment Requirements

- 3.2. **Fuel.** Equipment is to be delivered with a full tank of fuel and returned with a full tank of fuel.
- 3.3. **Fuel Charge/Credit.** When the price of on-highway diesel fuel exceeds \$2.55 per gallon, contractor may charge for the difference in price multiplied by the AGL (average gallons per hour) multiplied by the hours of actual use. Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel}$)

charge).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.

- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.
- 3.7. **Insurance.** The contractor must provide evidence of insurance as required by the user before the equipment may be operated. The user shall not be liable for accidents caused by the operator.
- 3.8. **Response.** Equipment should be supplied within a forty-eight (48) hours' notice whenever possible. Comment here on the normal availability of equipment.

2. BID PREPARATION: (a) Delivery time is critical and must be adhered to as specified. (b) Wherever in this document an item is defined by using a trade name of a manufacturer and/or model number, it is intended that the words, "or equivalent" apply. "Or equivalent" means any other brand that is equal in use, quality, economy and performance to the brand listed as determined by the DIVISION. If the supplier lists a trade name and/or catalog number in the bid, the DIVISION will assume the item meets the specifications unless the bid clearly states it is an alternate, and describes specifically how it differs from the item specified. All bids must include complete manufacturer's descriptive literature if quoting an equivalent product. All products are to be of new, unused condition, unless otherwise requested in this solicitation. (c) By submitting the bid the supplier certifies that all of the information provided is accurate, that they are willing and able to furnish the item(s) specified, and that prices quoted are correct. On the line item for "Freight Cost" suppliers are to indicate the total freight cost FOB Destination Freight Prepaid, and complete the "Freight Information" document. (f) DIVISION does not guarantee to make any purchase under awarded contract(s). Estimated quantities are for bidding purposes only, and not to be interpreted as a guarantee to purchase any amount. (g) Utah has a reciprocal preference law which will to be applied against bidders bidding products or services produced in states which discriminate against Utah products. For details see Section 63-56-404 and 63-56-405, Utah Code Annotated. (h) Bid tabulations and awards are posted www.purchasing.utah.gov/BidProcessing/BidTabulations.asp. State Cooperative Contract Heavy Equipment Rental With Operator

1. Introduction

- 1.1. Multiple state cooperative contracts are contemplated to facilitate the rental of heavy equipment with operator for users such as state agencies, cities, counties, towns, and school districts. Contracts will be two (2) years with three (3) one-year renewal options.

2. Bid Requirements

- 2.1. The bid is divided into two parts. The first part is the dialog boxes provided in sections 3.8 through 3.14 at the end of this document.

The second part is an Excel file. This should be downloaded from RFP Depot, filled in, and uploaded to RFP Depot. Brand names and model numbers shall be changed to reflect the exact brand and model you are offering. Minor changes to descriptions may also be changed to reflect your equipment. Descriptions provided shall clarify information, not hide information. You may insert rows as needed in the Excel file to provide other options. When not bidding an item leave it blank but do not delete the row. You must highlight all changes.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 2.3. The transportation costs shall be bid in dollars-per-hour or dollars- per-mile. If bidding in dollars-per-mile, you must change the column heading to \$/mi.

3. Rental Equipment Requirements

- 3.1. **Equipment.** All equipment must be of current design and be in good operating condition.
- 3.2. **Fuel.** Equipment is to be delivered with a full tank of fuel and returned with a full tank of fuel.
- 3.3. **Fuel Charge/Credit.** When the price of on-highway diesel fuel exceeds \$2.55 per gallon, contractor may charge for the difference in price multiplied by the AGL (average gallons per hour) multiplied by the hours of actual use. Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel}$)

charge).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.

- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.
- 3.7. **Insurance.** The contractor must provide evidence of insurance as required by the user before the equipment may be operated. The user shall not be liable for accidents caused by the operator.
- 3.8. **Response.** Equipment should be supplied within a forty-eight (48) hours' notice whenever possible. Comment here on the normal availability of equipment.

State Cooperative Contract Heavy Equipment Rental With Operator

1. Introduction

- 1.1. Multiple state cooperative contracts are contemplated to facilitate the rental of heavy equipment with operator for users such as state agencies, cities, counties, towns, and school districts. Contracts will be two (2) years with three (3) one-year renewal options.

2. Bid Requirements

- 2.1. The bid is divided into two parts. The first part is the dialog boxes provided in sections 3.8 through 3.14 at the end of this document.

The second part is an Excel file. This should be downloaded from RFP Depot, filled in, and uploaded to RFP Depot. Brand names and model numbers shall be changed to reflect the exact brand and model you are offering. Minor changes to descriptions may also be changed to reflect your equipment. Descriptions provided shall clarify information, not hide information. You may insert rows as needed in the Excel file to provide other options. When not bidding an item leave it blank but do not delete the row. You must highlight all changes.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 2.3. The transportation costs shall be bid in dollars-per-hour or dollars- per-mile. If bidding in dollars-per-mile, you must change the column heading to \$/mi.

3. Rental Equipment Requirements

- 3.1. **Equipment.** All equipment must be of current design and be in good operating condition.
- 3.2. **Fuel.** Equipment is to be delivered with a full tank of fuel and returned with a full tank of fuel.
- 3.3. **Fuel Charge/Credit.** When the price of on-highway diesel fuel exceeds \$2.55 per gallon, contractor may charge for the difference in price multiplied by the AGL (average gallons per hour) multiplied by the hours of actual use. Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel}$)

charge).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.

- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.
- 3.7. **Insurance.** The contractor must provide evidence of insurance as required by the user before the equipment may be operated. The user shall not be liable for accidents caused by the operator.
- 3.8. **Response.** Equipment should be supplied within a forty-eight (48) hours' notice whenever possible. Comment here on the normal availability of equipment.

State Cooperative Contract Heavy Equipment Rental With Operator

1. Introduction

- 1.1. Multiple state cooperative contracts are contemplated to facilitate the rental of heavy equipment with operator for users such as state agencies, cities, counties, towns, and school districts. Contracts will be two (2) years with three (3) one-year renewal options.

2. Bid Requirements

- 2.1. The bid is divided into two parts. The first part is the dialog boxes provided in sections 3.8 through 3.14 at the end of this document.

The second part is an Excel file. This should be downloaded from RFP Depot, filled in, and uploaded to RFP Depot. Brand names and model numbers shall be changed to reflect the exact brand and model you are offering. Minor changes to descriptions may also be changed to reflect your equipment. Descriptions provided shall clarify information, not hide information. You may insert rows as needed in the Excel file to provide other options. When not bidding an item leave it blank but do not delete the row. You must highlight all changes.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 2.3. The transportation costs shall be bid in dollars-per-hour or dollars- per-mile. If bidding in dollars-per-mile, you must change the column heading to \$/mi.

Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel}$)

charge).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. (\$2.30 - lower price) x AGL x hours = fuel credit.

- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.

Unit price shall be shown and a total price shall be entered for each item bid. Errors may be crossed out and corrections printed in ink or typewritten adjacent and must be initialed in ink by person signing bid. Unit price will govern, if there is an error in the extension. Written bids will be considered only if it is submitted on the forms provided by the DIVISION. (c) Bids, modifications, or corrections received after the closing time on the "Due Date" will be considered late and handled in accordance with the Utah Procurement Rules, section R33-3-109. (d) Facsimile transmission of bids to DIVISION will not be considered.

2. BID PREPARATION: (a) Delivery time is critical and must be adhered to as specified. (b) Wherever in this document an item is defined by using a trade name of a manufacturer and/or model number, it is intended that the words, "or equivalent" apply. "Or equivalent" means any other brand that is equal in use, quality, economy and performance to the brand listed as determined by the DIVISION. If the supplier lists a trade name and/or catalog number in the bid, the DIVISION will assume the item meets the specifications unless the bid clearly states it is an alternate, and describes specifically how it differs from the item specified. All bids must include complete manufacturer's descriptive literature if quoting an equivalent product. All products are to be of new, unused condition, unless otherwise requested in this solicitation. (c) By submitting the bid the supplier certifies that all of the information provided is accurate, that they are willing and able to furnish the item(s) specified, and that prices quoted are correct. (d) This bid may not be withdrawn for a period of 60 days from bid due date.

3. FREIGHT COST: (a) Where "Freight Cost" is listed as a separate line item, suppliers are to provide product line item pricing FOB Origin Less Freight. On the line item for "Freight Cost" suppliers are to indicate the total freight cost FOB Destination Freight Prepaid, and complete the "Freight Information" document. The DIVISION will analyze freight charges separately from the item cost and determine how the shipment will be routed (either by the supplier, or by the State's carrier). (b) Where there is not a line item for "Freight Cost", suppliers are to provide line item pricing FOB Destination Freight Prepaid. Unless otherwise indicated on the contract/purchase order, shipping terms will be FOB Destination Freight Prepaid.

5. PROTECTED INFORMATION: Suppliers are required to mark any specific information contained in their bid which they are claiming as protected and not to be disclosed to the public or used for purposes other than the evaluation of the bid. Each request for non-disclosure must be made by completing the "Confidentiality Claim Form" located at: <http://www.purchasing.utah.gov/contractinfo/ConfidentialityClaimForm.doc> with a specific justification explaining why the information is to be protected. (b) The bids are opened publicly. The name of each bidder and the amount of the bid is recorded. Each bid, and the record, is open to public inspection. (f) DIVISION does not guarantee to make any purchase under awarded contract(s). Estimated quantities are for bidding purposes only, and not to be interpreted as a guarantee to purchase any amount. (g) Utah has a reciprocal preference law which will to be applied against bidders bidding products or services produced in states which discriminate against Utah products. For details see Section 63-56-404 and 63-56-405, Utah Code Annotated. (h) Bid tabulations and awards are posted www.purchasing.utah.gov/BidProcessing/BidTabulations.asp. State Cooperative Contract
Heavy Equipment Rental With Operator

1. Introduction

- 1.1. Multiple state cooperative contracts are contemplated to facilitate the rental of heavy equipment with operator for users such as state agencies, cities, counties, towns, and school districts. Contracts will be two (2) years with three (3) one-year renewal options.

2. Bid Requirements

- 2.1. The bid is divided into two parts. The first part is the dialog boxes provided in sections 3.8 through 3.14 at the end of this document.

The second part is an Excel file. This should be downloaded from RFP Depot, filled in, and uploaded to RFP Depot. Brand names and model numbers shall be changed to reflect the exact brand and model you are offering. Minor changes to descriptions may also be changed to reflect your equipment. Descriptions provided shall clarify information, not hide information. You may insert rows as needed in the Excel file to provide other options. When not bidding an item leave it blank but do not delete the row. You must highlight all changes.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 2.3. The transportation costs shall be bid in dollars-per-hour or dollars- per-mile. If bidding in dollars-per-mile, you must change the column heading to \$/mi.

3. Rental Equipment Requirements

- 3.1. **Equipment.** All equipment must be of current design and be in good operating condition.
- 3.2. **Fuel.** Equipment is to be delivered with a full tank of fuel and returned with a full tank of fuel.
- 3.3. **Fuel Charge/Credit.** When the price of on-highway diesel fuel exceeds \$2.55 per gallon, contractor may charge for the difference in price multiplied by the AGL (average gallons per hour) multiplied by the hours of actual use. Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel}$)

charge).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.

- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.
- 3.7. **Insurance.** The contractor must provide evidence of insurance as required by the user before the equipment may be operated. The user shall not be liable for accidents caused by the operator.
- 3.8. **Response.** Equipment should be supplied within a forty-eight (48) hours' notice whenever possible. Comment here on the normal availability of equipment.
48 Hrs notice is sufficient on a normal basis.
- 3.9. **Definitions.** Please fill in the blanks.

Day -	8 Hrs
Week-	40 Hours
Overtime-	Over 8 Hours a day
Weekend-	Hours of operation on Saturday, Sunday or a State Holiday.
Emergency Time-	Rental required with less than twenty-four (24) hours' notice.

- 3.10 State what additional **fees** if any, are invoiced.
\$.94 per Gallon for CSS1 Tack Oil.

- 3.11 State any **other** items/parameters applicable to this (resulting) contract.
- 3.12 Provide a **list** of all your Utah **rental stores** and contact information. Note: Each rental store listed shall be bound by the same rental rates. If different, each store must submit their own bid.
- 3.13 Indicate if you have a **system in place** to fully perform the reporting function stated in Section 20 of the terms and conditions? ("**20. A

State Cooperative Contract Heavy Equipment Rental With Operator

1. Introduction

- 1.1. Multiple state cooperative contracts are contemplated to facilitate the rental of heavy equipment with operator for users such as state agencies, cities, counties, towns, and school districts. Contracts will be two (2) years with three (3) one-year renewal options.

2. Bid Requirements

- 2.1. The bid is divided into two parts. The first part is the dialog boxes provided in sections 3.8 through 3.14 at the end of this document.

The second part is an Excel file. This should be downloaded from RFP Depot, filled in, and uploaded to RFP Depot. Brand names and model numbers shall be changed to reflect the exact brand and model you are offering. Minor changes to descriptions may also be changed to reflect your equipment. Descriptions provided shall clarify information, not hide information. You may insert rows as needed in the Excel file to provide other options. When not bidding an item leave it blank but do not delete the row. You must highlight all changes.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 2.3. The transportation costs shall be bid in dollars-per-hour or dollars- per-mile. I bidding in dollrs-per-mile, you must change the column heading to \$/mi.

3. Rental Equipment Requirements

- 3.1. **Equipment.** All equipment must be of current design and be in good operating condition.
- 3.2. **Fuel.** Equipment is to be delivered with a full tank of fuel and returned with a full tank of fuel.
- 3.3. **Fuel Charge/Credit.** When the price of on-highway diesel fuel exceeds \$2.55 per gallon, contractor may charge for the difference in price multiplied by the AGL (average gallons per hour) multiplied by the hours of actual use. Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel charge}$).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.

- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.
- 3.7. **Insurance.** The contractor must provide evidence of insurance as required by the user before the equipment may be operated. The user shall not be liable for accidents caused by the operator.
- 3.8. **Response.** Equipment should be supplied within a forty-eight (48) hours' notice whenever possible. Comment here on the normal availability of equipment.

- 3.9. **Definitions.** Please fill in the blanks.

1. SUBMITTING THE BID: (a) The Utah Division of Purchasing and General Services (DIVISION) prefers that bids be submitted electronically. Electronic bids may be submitted through a secure mailbox at RFP Depot, LLC (www.rfpdepot.com) until the date and time as indicated in this document. It is the sole responsibility of the supplier to ensure their bid reaches RFP Depot, LLC before the closing date and time. There is no cost to the supplier to submit Utah's electronic bids via RFP Depot, LLC. (b) If the supplier chooses to submit the bid directly to the DIVISION in writing: The bid must be signed in ink, sealed in a properly addressed envelope, and delivered to the Division of Purchasing, 3150 State Office Building, Capitol Hill, Salt Lake City, UT 84114-1061 by the "Due Date and Time." The "Bid Number" and "Due Date" must appear on the outside of the envelope. All prices and notations must be in ink or typewritten. Each item must be priced separately. Unit price shall be shown and a total price shall be entered for each item bid. Errors may be crossed out and corrections printed in ink or typewritten adjacent and must be initialed in ink by person signing bid. Unit price will govern, if there is an error in the extension. Written bids will be considered only if it is submitted on the forms provided by the DIVISION. (c) Bids, modifications, or corrections received after the closing time on the "Due Date" will be considered late and handled in accordance with the Utah Procurement Rules, section R33-3-109. (d) Facsimile transmission of bids to DIVISION will not be considered.

2. BID PREPARATION: (a) Delivery time is critical and must be adhered to as specified. (b) Wherever in this document an item is defined by using a trade name of a manufacturer and/or model number, it is intended that the words, "or equivalent" apply. "Or equivalent" means any other brand that is equal in use, quality, economy and performance to the brand listed as determined by the DIVISION. If the supplier lists a trade name and/or catalog number in the bid, the DIVISION will assume the item meets the specifications unless the bid clearly states it is an alternate, and describes specifically how it differs from the item specified. All bids must include complete manufacturer's descriptive literature if quoting an equivalent product. All products are to be of new, unused condition, unless otherwise requested in this solicitation. (c) By submitting the bid the supplier certifies that all of the information provided is accurate, that they are willing and able to furnish the item(s) specified, and that prices quoted are correct. (d) This bid may not be withdrawn for a period of 60 days from bid due date.

3. FREIGHT COST: (a) Where "Freight Cost" is listed as a separate line item, suppliers are to provide product line item pricing FOB Origin Less Freight. On the line item for "Freight Cost" suppliers are to indicate the total freight cost FOB Destination Freight Prepaid, and complete the "Freight Information" document. The DIVISION will analyze freight charges separately from the item cost and determine how the shipment will be routed (either by the supplier, or by the State's carrier). (b) Where there is not a line item for "Freight Cost", suppliers are to provide line item pricing FOB Destination Freight Prepaid. Unless otherwise indicated on the contract/purchase order, shipping terms will be FOB Destination Freight Prepaid.

4. SOLICITATION AMENDMENTS: All changes to this solicitation will be made through written addendum only. Bidders are cautioned not to consider verbal modifications.

5. PROTECTED INFORMATION: Suppliers are required to mark any specific information contained in their bid which they are claiming as protected and not to be disclosed to the public or used for purposes other than the evaluation of the bid. Each request for non-disclosure must be made by completing the "Confidentiality Claim Form" located at: <http://www.purchasing.utah.gov/contractinfo/ConfidentialityClaimForm.doc> with a specific justification explaining why the information is to be protected. Pricing and service elements of any bid will not be considered proprietary. All material becomes the property of the DIVISION and may be returned only at the DIVISION's option. Bids submitted may to be reviewed and evaluated by any persons at the discretion of the DIVISION.

6. SAMPLES: Samples of item(s) specified in this bid, when required by DIVISION, must to be furnished free of charge to DIVISION. Any item not destroyed by tests may, upon request made at the time the sample is furnished, be returned at the bidder's expense.

7. AWARD OF CONTRACT: (a) The contract will to be awarded with reasonable promptness, by written notice, to the lowest responsible bidder that meets the specifications. Consideration will to be given to the quality of the product(s) to be supplied, conformity to the specifications, the purpose for which required, delivery time required, discount terms and other criteria set forth in this invitation to bid. (b) The bids are opened publicly. The name of each bidder and the amount of the bid is recorded. Each bid, and the record, is open to public inspection. (c) The DIVISION may accept any item or group of items, or overall low bid. The DIVISION has the right to cancel this invitation to bid at any time prior to the award of contract. (d) The

DIVISION can reject any or all bids, and it can waive any informality, or technicality in any bid received, if the DIVISION believes it would serve the best interest of the State. (e) Before, or after, the award of a contract the DIVISION has the right to inspect the bidder's premises and all business records to determine the holder's ability to meet contract requirements. (f) DIVISION does not guarantee to make any purchase under awarded contract(s). Estimated quantities are for bidding purposes only, and not to be interpreted as a guarantee to purchase any amount. (g) Utah has a reciprocal preference law which will to be applied against bidders bidding products or services produced in states which discriminate against Utah products. For details see Section 63-56-404 and 63-56-405, Utah Code Annotated. (h) Bid tabulations and awards are posted www.purchasing.utah.gov/BidProcessing/BidTabulations.asp. (i) Multiple contracts may be awarded if the DIVISION determines it would be in its best interest.

8. DIVISION APPROVAL: Purchase orders placed, or contracts written, with the State of Utah, as a result of this bid, will not be legally binding without the written approval of the director of the DIVISION.

9. DEBARMENT: The CONTRACTOR certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. The party in violation will be given ten (10) working days after notification to correct and cease the violations, after which the contract may be terminated for cause. This contract may be terminated without cause, in advance of the specified expiration date, by either party, upon 90 days prior written notice being given the other party. On termination of this contract, all accounts and payments will be processed according to the financial arrangements set forth herein for approved services

rendered to date of termination.

13. NONAPPROPRIATION OF FUNDS: The Contractor acknowledges that the State cannot contract for the payment of funds not yet appropriated by the Utah State Legislature. If funding to the State is reduced due to an order by the Legislature or the Governor, or is required by State law, or if federal funding (when applicable) is not provided, the State may terminate this contract or proportionately reduce the services and purchase obligations from the State upon 30 days written notice. In the case that funds are not appropriated or are reduced, the State will reimburse Contractor for products delivered or services performed through the date of cancellation or reduction, and the State will not be liable for any future commitments, penalties, or liquidated damages.

14. TAXES: Bid/proposal prices will be exclusive of state sales, use and federal excise taxes. The State of Utah's sales and use tax exemption number is E33399. The tangible personal property or services being purchased are being paid from STATE funds and used in the exercise of that entity's essential functions. If the items being purchased are construction materials, they will be converted into real property by employees of this government entity, unless otherwise stated in the contract, or contract orders. The State of Utah's Federal excise exemption number is 87-780019K.

15. WARRANTY: The Contractor agrees to warrant and assume responsibility for all products (including hardware, firmware, and/or software products) that it licenses, contracts, or sells to the State of Utah under this contract for a period of one year, unless otherwise specified and mutually agreed upon elsewhere in this contract. The Contractor (seller) acknowledges that all warranties granted to the buyer by the Uniform Commercial Code of the State of Utah apply to this contract. Product liability disclaimers and/or warranty disclaimers from the seller are not applicable to this contract unless otherwise specified and mutually agreed upon elsewhere in this contract. In general, the Contractor warrants that: (1) the product will do what the salesperson said it would do, (2) the product will live up to all specific claims that the manufacturer makes in their advertisements, (3) the product will be suitable for the ordinary purposes for which such product is used, (4) the product will be suitable for any special purposes that the STATE has relied on the Contractor's skill or judgment to consider when it advised the STATE about the product, (5) the product has been properly designed and manufactured, and (6) the product is free of significant defects or unusual problems about which the STATE has not been warned. Remedies available to the STATE include the following: The Contractor will repair or replace (at no charge to the STATE) the product whose nonconformance is discovered and made known to the Contractor in writing. If the repaired and/or replaced product proves to be inadequate, or fails of its essential purpose, the Contractor will refund the full amount of any payments that have been made. Nothing in this warranty will be construed to limit any rights or remedies the State of Utah may otherwise have under this contract.

16. PARTICIPANTS: This is a contract to provide the State of Utah government departments, institutions, agencies and political subdivisions (i.e., colleges, school districts, counties, cities, etc.) with the goods and/or services described in the bid/proposal.

17. POLITICAL SUBDIVISION PARTICIPATION: Participation under this contract by political subdivisions (i.e., colleges, school districts, counties, cities, etc.) will be voluntarily determined by the political subdivision. The Contractor agrees to supply the political subdivisions based upon the same terms, conditions and prices.

18. QUANTITY ESTIMATES: The STATE does not guarantee to purchase any amount under the contract to be awarded. Estimated quantities are for proposing purposes only and are not to be construed as a guarantee to purchase any amount.

19. DELIVERY: The prices proposed will be the delivered price to any state agency or political subdivision. Unless otherwise specified by the State, all deliveries will be F.O.B. destination with all transportation and handling charges paid by the Contractor. Responsibility and liability for loss or damage will remain with Contractor until final inspection and acceptance when responsibility will pass to the Buyer except as to latent defects, fraud, and Contractor's warranty obligations. The minimum shipment amount will be found in the special terms and conditions. Any order for less than the specified amount is to be shipped with the freight prepaid and added as a separate item on the invoice. Any portion of an order to be shipped without transportation charges that is back ordered will be shipped without transportation charges.

20. REPORTS: The Contractor will submit quarterly reports to the State Purchasing Agent showing the quantities and dollar volume of purchases by each agency and political subdivision.

21. PROMPT PAYMENT DISCOUNT: Offeror may quote a prompt payment discount based upon early payment; however, discounts offered for less than 30 days will not be considered in making the award. The prompt payment discount will apply to payments made with purchasing cards and checks. The date from which discount time is calculated will be the date a correct invoice is received or receipt of shipment, whichever is later; except that if testing is performed, the date will be the date of acceptance of the merchandise.

22. FIRM PRICES: Unless otherwise stated in the special terms and conditions, for the purpose of award, offers made in accordance with this solicitation must be good and firm for a period of ninety (90) days from the date of bid/proposal opening.

23. PRICE GUARANTEE, ADJUSTMENTS: The contract pricing resulting from this bid/proposal will be guaranteed for the period specified. Following the guarantee period, any request for price adjustment must be for an equal guarantee period,

and must be made at least 30 days prior to the effective date. Requests for price adjustment must include documentation supporting the request and demonstrating a logical mathematical link between the current price and the proposed price. Any adjustment or amendment to the contract will not be effective unless approved by the State Director of Purchasing. The STATE will be given the immediate benefit of any decrease in the market, or allowable discount.

24. ORDERING AND INVOICING: Orders will be placed by the using agencies directly with the Contractor. All orders will be shipped promptly in accordance with the delivery guarantee. The Contractor will then promptly submit invoices to the ordering agency. The STATE contract number and the agency ordering number will appear on all invoices, freight tickets, and correspondence relating to the contract order. The prices paid by the STATE will be those prices on file with the Division of Purchasing. The STATE has the right to adjust or return any invoice reflecting incorrect pricing.

25. PAYMENT: Payments are normally made within 30 days following the date the order is delivered or the date a correct invoice is received, whichever is later. After 45 days the Contractor may assess overdue account charges up to a maximum rate of one percent per month on the outstanding balance. Payments may be made via a State of Utah (or political subdivision) "Purchasing Card" (major credit card). All payments to the Contractor will be remitted by mail unless paid by Purchasing Card.

26. MODIFICATION OR WITHDRAWAL OF BIDS/PROPOSALS: Bids/proposals may be modified or withdrawn prior to the time set for the opening of bids/proposals. After the time set for the opening of bids/proposals, no bids/proposals may be modified or withdrawn.

27. BID/PROPOSAL PREPARATION COSTS: The STATE is not liable for any costs incurred by the offeror in bid/proposal preparation.

28. INSPECTIONS: Goods furnished under this contract will be subject to inspection and test by the Buyer at times and places determined by the Buyer. If the Buyer finds goods furnished to be incomplete or not in compliance with bid/proposal specifications, the Buyer may reject the goods and require Contractor to either correct them without charge or deliver them at a reduced price which is equitable under the circumstances. If Contractor is unable or refuses to correct such goods within a time deemed reasonable by the Buyer, the Buyer may cancel the order in whole or in part. Nothing in this paragraph will adversely affect the Buyer's rights including the rights and remedies associated with revocation of acceptance under the Uniform Commercial Code.

29. PATENTS, COPYRIGHTS, ETC.: The Contractor will release, indemnify and hold the Buyer, its officers, agents and employees harmless from liability of any kind or nature, including the Contractor's use of any copyrighted or un-copyrighted composition, secret process, patented or un-patented invention, article or appliance furnished or used in the performance of this contract.

30. ASSIGNMENT/SUBCONTRACT: Contractor will not assign, sell, transfer, subcontract or sublet rights, or delegate responsibilities under this contract, in whole or in part, without the prior written approval of the State Director of Purchasing.

31. DEFAULT AND REMEDIES: Any of the following events will constitute cause for the STATE to declare Contractor in default of the contract: 1. Nonperformance of contractual requirements; 2. A material breach of any term or condition of this contract. The STATE will issue a written notice of default providing a period in which Contractor will have an opportunity to cure. Time allowed for cure will not diminish or eliminate Contractor's liability for liquidated or other damages. State Cooperative Contract Heavy Equipment Rental With Operator

1. Introduction

- 1.1. Multiple state cooperative contracts are contemplated to facilitate the rental of heavy equipment with operator for users such as state agencies, cities, counties, towns, and school districts. Contracts will be two (2) years with three (3) one-year renewal options.

2. Bid Requirements

- 2.1. The bid is divided into two parts. The first part is the dialog boxes provided in sections 3.8 through 3.14 at the end of this document.

The second part is an Excel file. This should be downloaded from RFP Depot, filled in, and uploaded to RFP Depot. Brand names and model numbers shall be changed to reflect the exact brand and model you are offering. Minor changes to descriptions may also be changed to reflect your equipment. Descriptions provided shall clarify information, not hide information. You may insert rows as needed in the Excel file to provide other options. When not bidding an item leave it blank but do not delete the row. You must highlight all changes.

- 2.2. The pricing within the bid must be net pricing (to include all costs other than transport) and guaranteed for a minimum of **one year**.
- 2.3. The transportation costs shall be bid in dollars-per-hour or dollars- per-mile. If bidding in dollars-per-mile, you must change the column heading to \$/mi.

3. Rental Equipment Requirements

- 3.1. **Equipment.** All equipment must be of current design and be in good operating condition.
- 3.2. **Fuel.** Equipment is to be delivered with a full tank of fuel and returned with a full tank of fuel.
- 3.3. **Fuel Charge/Credit.** When the price of on-highway diesel fuel exceeds \$2.55 per gallon, contractor may charge for the difference in price multiplied by the AGL (average gallons per hour) multiplied by the hours of actual use. Pricing for any given week will be based on the Monday price of the Energy Information Administration listing for the Rocky Mountain Region found at:
<http://tonto.eia.doe.gov/oog/info/gdu/gasdiesel.asp>

For example, if in a given week the price of fuel was \$2.85, \$0.30 ($2.85 - 2.55 = 0.30$) may be used to calculate the fuel charge ($\$0.30 \times \text{AGL} \times \text{hours} = \text{fuel charge}$).

Should the cost of fuel drop below \$2.30 the same formula shall be used to calculate the credit due the state. E.g. $(\$2.30 - \text{lower price}) \times \text{AGL} \times \text{hours} = \text{fuel credit}$.

- 3.4. **Operation Supplies.** Contractor shall furnish all operating supplies. The cost of supplies which must be provided by the user shall be deducted from contractor's invoice.
- 3.5. **Equipment Operator.** The equipment is to be operated by a licensed and trained employee of the contractor. The user reserves the right to request that an operator be replaced.
- 3.6. **Breakdowns and Repairs.** During the rental period, if equipment breaks down due to normal wear and tear it shall be the contractor's responsibility to repair the equipment without cost to the user.
- 3.7. **Insurance.** The contractor must provide evidence of insurance as required by the user before the equipment may be operated. The user shall not be liable for accidents caused by the operator.
- 3.8. **Response.** Equipment should be supplied within a forty-eight (48) hours' notice whenever possible. Comment here on the normal availability of equipment.

- 3.9. **Definitions.** Please fill in the blanks.

Question

Is this bid for the entire state or are we bidding on specific zones as in the past? (Submitted: Mar 15, 2007 8:38:45 AM MDT)

- I There are no zones as in the past. You may be considered anywhere in the state where your rental rate plus transportation is competitive. (Answered: Mar 15, 2007 8:43:56 AM MDT)

Question

On the rental rate spread sheet on the agl when I enter an amount a \$ sign is by it. Should it be average gallons per hour or average gallons per hour multiplied by current feul costs? (Submitted: Mar 15, 2007 3:48:46 PM MDT)

Answer

- I The appearance of the dollar sign is an error. Please change it or ignore it. What is wanted is the average gallons per hour. (Answered: Mar 15, 2007 4:27:29 PM MDT)

Question

On the rental rate spread sheet there is a line item "with water truck". Do you want the rate for just the water truck or Rotomill and water truck combined? (Submitted: Mar 15, 2007 4:05:40 PM MDT)

Answer

- I Just the water truck. It will be understood that both rates will apply when a water truck is added. (Answered: Mar 15, 2007 4:28:28 PM MDT)
